[Academic Search Premier](#)

This multi-disciplinary database provides full text for more than 4,600 journals, including full text for nearly 3,900 peer-reviewed titles. PDF backfiles to 1975 or further are available for well over one hundred journals, and searchable cited references are provided for more than 1,000 titles.

 [More Information](#)

[Business Source Premier](#)

*Business Source Premier* is the industry's most used business research database, providing full text for more than 2,300 journals, including full text for more than 1,100 peer-reviewed titles. This database provides full text back to 1886, and searchable cited references back to 1998. *Business Source Premier* is superior to the competition in full text coverage in all disciplines of business, including marketing, management, MIS, POM, accounting, finance and economics. This database is updated

Welcome to the EBSCO*host* Mobile tutorial, a guide to the most popular EBSCO*host* features available for use on mobile devices such as the iPhone, BlackBerry, and Android-based smartphones.

If you are using a device with a touch screen, such as an iPhone, tap the **Find** field to reveal your onscreen keypad and enter your search terms. Make selections by tapping the screen.

If you are using a BlackBerry, navigate to the **Find** field using your trackball and type in the keywords using the keypad. Make selections by pressing the trackball of your device.

We'll begin by conducting a Basic Search on *global warming*.

You can view available limiters and expanders by clicking or tapping the **Search Options** link.

From the Image search screen, you can search the Image Collection and Image Quick View Collection databases.

Narrow your search by image types, such as:

- Photos of people
- Historical photos
- Maps
- Color photographs
- Graphs

To use image search, simply enter your search terms, select your preferred image types, and click Search.

Note that the image search screen is not available in all EBSCOhost databases.

"381890 04: NETHERLANDS OUT: A man walks by a huge sign warning of global warming at the 6th United Nations Conference on Climate Control November 14th, 2000 in The Hague, The Netherlands. Over 180 countries will focus on how to diminish the output of greenhouse gasses like CO2 in an effort to put a halt to the continuing global warming. The topic becomes increasingly important as small climate changes directly result in the rise of sea water levels, heat waves, floods and cyclones. (Photo by Michel Porro/Newsmakers)" -- Image Date: 11/14/2000

## Creating a Search

The Search Screen lets you create a search with Search Modes, limiters, and Boolean operators.

To create a Search:

1. On the Search Screen, enter your search terms in the Find field.

The screenshot shows the EBSCO search interface. At the top, there are tabs for 'New Search', 'Images', and 'Help'. Below the tabs, it says 'Demonstration Customer'. There is a search input field containing 'global warming' and a 'Search' button. Below the search field, it says 'Searching:' followed by 'Academic Search Premier'. There are several links: 'Choose Databases', 'Search Options', 'Field Codes', and 'Preferences'. At the bottom of the search area, there is a 'Top of Page' link.

2. To apply any of the optional Limiters or change the Search Mode, click the Search Options link.

This screenshot is identical to the one above, showing the EBSCO search interface with 'global warming' in the search field and the 'Search' button.
